

Charles H. Kang

PROFESSIONAL EXPERIENCE

iOS Developer / [Access Code Fellowship](#) – New York, NY

June 2015 to February 2016

- Graduate of highly competitive career-training program, with 5% acceptance rate out of 580 applicants
- Intensive 9-month iOS development program including Objective-C, Swift, Git, API's, JSON, Data Structures, Algorithms, tech principles, and culture

[Neverlate](#) – New York, NY

November to December 2015

- Presented at NY Tech Meetup as "hack of the month", to an audience of 860 in February
- Neverlate is an app that allows users to create goals to be on time, and if they're late, they need to pay their buddy
- Led the team's UI and UX needs using Sketch 3 and Photoshop to quickly wireframe and design the app
- Implemented Apple Maps API, including user location and geofencing

[OfficeHours](#) – New York, NY

October 2015

- OfficeHours helps individuals in underserved, underrepresented communities find local tutors to receive programming help
- Implemented Google Maps API and ability to find a tutor
- Designed and wireframed UI and user flow using Photoshop

Barista / Kaffe 1668 – New York, NY

April to August 2015

- Planned with the owners to create highly efficient POS (Square) strategies that allowed for increased sales
- Facilitated a harmonious work environment for a diverse team of 5 baristas
- Reduced time customers spent in line by 30%, increased tips by 25%

Cook II / Stonehill Tavern – Dana Point, CA

March to July 2014

- Developed seasonal tasting menus alongside the executive and sous chef
- Helped increase ingredient utilization by 20%
- Prepared entire kitchen to be koshered on Passover week in several hours
